ADDITIONAL

ACNE TREATMENT

PURUS ACNE DEEP CLEANING

A Purus Acne deep cleaning is relaxing and is intensely purifying, while still maintaining the moisture level. The technique is mild and natural. During the acne treatment regimen (5 to 8 treatments/ 1x per week) we follow the Medex Purus treatment method. An intensive regiment of this treatment is essential to attain the desired result. Use of some home-care products is suggested to ensure long-term improvement.

Purus Acne 30 min • 30.00

Purus Acne 60 min • 50.00

Regimen of 5 treatments • 135.00*

** treatment of 30 min*

FRUIT ACID TREATMENT

FRUIT ACID TREATMENT

With this type of exfoliation a fruit acid (a-hycid@Gel) is applied to the skin. After a set period, this loosens the skin cells. The amount of skin layers removed depends upon how long it is allowed to absorb. This is a very effective method to rejuvenate your skin, reducing scars, hyperpigmentation, imperfections and inflammation, including from acne. The result: a radiant and softer complexion.

Individual treatment 30 min • 48.00

Regimen of 5 treatments • 260.00*

Regimen of 10 treatments • 500.00*

** including home-care products valued at € 65,00*
